InnSync Hardwater Detergent

Benefits:

Concentrated formula – Economical to use
High alkalinity – Rapidly breaks down soils
Heavily built – Reduces scale formation
Phosphate and NPE free – Environmentally responsible

Description:

A premium concentrated mechanical ware washing detergent that combines new technology surfactants with water softening agents for exceptional results. Can be used in both low and high temperature machines and is particularly effective in high hardwater conditions.

Caution:

- Keep out of reach of children
- DO NOT mix with other chemicals
- Read MSDS completely before using this product

Directions & Dilutions:

Automatically inject into the dish machine or glass washer using appropriate dispenser. Typical use levels range from 0.1% to 0.3% depending on specific water conditions and operating variables.

Consult your Swish Representative for detailed wash instructions for your specific applications.
