

Inn-Sync Solid Safe Presoak & Detarnisher

Benefits:

Provides effective and economical presoaking of kitchenware
Safe on soft metals
Works in all water conditions

Description:

This unique solid product provides effective and economical presoaking of kitchenware and cuts down wasted product. Our dual purpose product is also effective in detarnishing silver. Enzyme fortified to quickly soften the toughest food soils from kitchenware and flatware prior to mechanical washing. For use on flatware, silverware, pots, pans, utensils and many other kitchen items. Safe on soft metals. Works in all water conditions. Does not contain phosphates or NTA. Shipping container has an easy lift handle for placing jar into dispenser.

Caution:

Contains alkaline materials. Harmful if swallowed or allowed to come into contact with skin or eyes. FIRST AID: In case of ingestion, DO NOT INDUCE VOMITING. Drink a large amount of water followed with citrus juice or a diluted vinegar solution. Get medical attention immediately. Never give fluids to an unconscious person. In case of eye contact, flush with clear water for 15 minutes, followed with a 5% boric acid solution. Get medical attention. In case of skin contact, wash with a mild soap and water. If irritation occurs, get medical advice. Refer to your Material Safety Data Sheet for additional precautions and handling procedures.

Directions & Dilutions:

This product should be dispensed only from equipment designed specifically to handle solid capsule detergents. Remove cap and place inverted capsule into bowl unit. Set the detergent timer to flush an adequate amount of water to flush against block and flow into presoak tub/tray. Typical usage is 1/2 to 1 ounce per 3 gallons of water. Fill the remainder of the soak pan with warm water. Place flatware into pan and allow to soak until solids have been loosened. **For detarnishing, place a piece of aluminum foil to cover bottom surface of soaking tray.** Rack flatware and rinse with warm water from sink to remove excess detergent, then wash as usual in mechanical washer. For pots and pans that require extra soaking, direct detergent solution into sink and fill with warm to hot water. Place pots and pans into sink and allow to soak until the soils can be easily removed.

Consult your Swish Representative for detailed wash instructions for your specific applications.
